

XI. Class 3 post offices

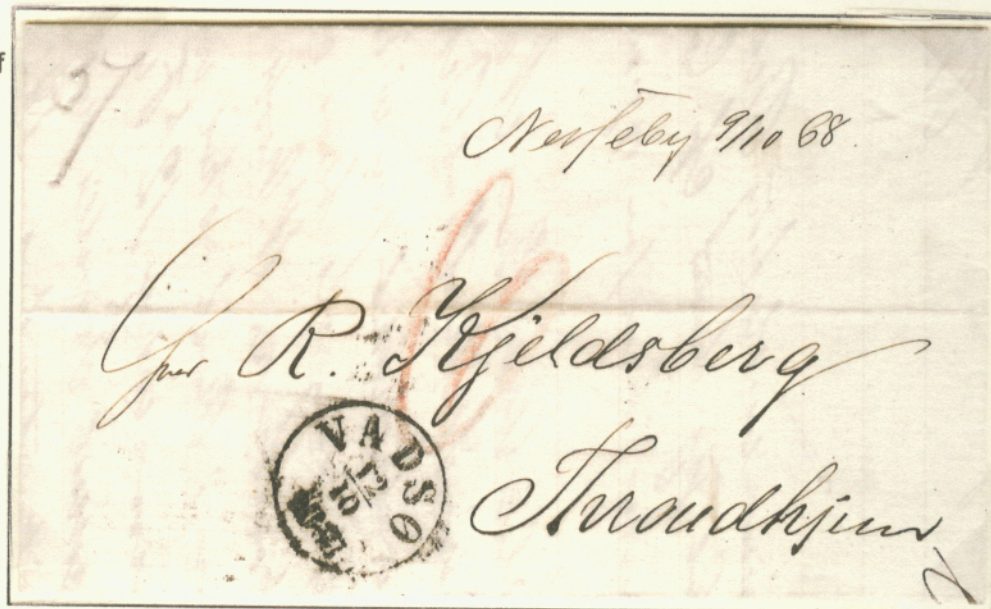

NÆSSEBY / NYBORG

Næsseby post office was established in April 1854 in the settlement of Nyborg and was therefore named Nyborg p. o. by the local people and the county administration in Finnmark. The post office got a numeral canceller "208" in 1856 and a 1-ring circular date-stamp with text "NÆSSEBY" in 1859. This latter handstamp seems to have been lost in the mid 1860'ies, inferred from the frequent and exclusive pen manuscript cancellations found on stamps and letters in a period from 1865 until 1875. The name of the post office was changed to Nyborg in 1876, and a 1-ring circular date-stamp with name "NYBORG" was delivered in 1879
